CARE OF YOUR TABLE TOPS

These table tops are tough and will last a long time if a little care is taken. Follow these simple tips to enjoy your top for years to come.

These tops are suitable for indoor & alfresco use. We recommend you do not leave in the sun for long periods of time. Table tops heat up in direct sunlight (especially dark colours), which may cause the wood to expand, resulting in a slight bow.

Water resistant. We recommend to wipe spills immediately. Leaving tea, coffee etc on a table top can lead to staining and reduce the life of your top.

The diagram illustrates the process of selecting a table top and base. On the left, a row of various colored and textured table top samples is shown. Below this, a box labeled "Ricardo Table Top" specifies "60 or 70cm diameter" and "60, 70 or 80cm square", with a price tag of "from \$188". On the right, another row of table top samples is shown, with a box labeled "Diego Table Top" specifying "60 or 70cm diameter" and "60, 70 or 80cm square", with a price tag of "from \$218". Both boxes point to a central box labeled "Tomas Folding Table or Bar Height Base". An arrow from this central box points down to a red box labeled "5% discount". To the right of the diagram, a photograph shows a completed high-top table with a black metal base and a white table top, accompanied by a black metal bar stool.
